

Add patient

1 Add patient

- Click the left hand menu link [Add patient] to add a new patient to the system.

2 Add patient details

- All patient details must be filled in before the patient can be added.
- Remember to sign the patient card once you have saved the new patient. Read more about signing in the "Sign data" lesson.
- View the status of the patient card on the Choose patient page using the study status view option.
