

1 Navigation and patient search

- Start page: the start page in study contains various areas where you can perform activities.
- Navigation is done by using the menu links (1) on the left hand side and the top right links (3).
- Quick links to queries (2) or modifying the user profile are at the center of the start page.
- Patient search criteria (4) is at the center of the start page.

The screenshot shows the VIEDOC start page for a 'Demonstration study'. On the left is a navigation menu (1) with links like 'Add patient', 'Choose patient', 'Queries', 'Comments', 'Randomize patient', 'Patient information', 'Visit calendar', 'Signing console', 'Change study/center', and 'Log out'. At the top right are links for 'Start page' (3) and 'Contact'. The main content area includes a welcome message, a notification of 4 unresolved queries (2), and a search patient form (4) with fields for search criteria and a 'Search' button. On the right, there are two charts: 'Inclusion over time' and 'Inclusion up until today'.

2 Inclusion overview

- The graphs on the start page display 1) the overall recruitment over time for the entire study, and 2) the recruitment for your site compared to the entire study.
- The graphs are updated on-the-fly as soon as data is added or edited in the system.
